NUMBER 30

VOLUME 19

ANNUAL MEETING OF LAWN TENNIS CLUB

First Season Was Crowned With Success—Additional Courts To Be Provided

(Contributed)
The Annual General Meeting of the Kelowna Lawn Tennis Club was held on Saturday, the 10th inst., at the Board of Trade rooms. The President, Dr. B. F. Boyce, occupied the chair, and there were 34 members present. The President reviewed the work of the past year and the future of the Club, saying in part:

"Ladies and Gentlemen: There is little to report and still less to criticize regarding the first season of the Kelowna Lawn Tennis Club, since the war, other than to say that the reorganization has been a success from start to finish.

"Your membership roll has proved conclusively that Kelowna had need of a Tennis Club.

"You have all shown that by working together in harmony there is no limit to what can be accomplished.

"Your Open Tournament was without doubt the most successful ever held in the Interior of B.C.

"Great credit is due to your Secretaries for the hard work he has done and the very satisfactory balance sheet he has presented.

"No praise is too great for your Tea Committee. The success of the tournament and the season is largely due to them.

"Your General Committee has worked untiringly and it is most gratifying to be able to state that there was practically a full attendance at each meeting.

"Whoever you decide to elect on your new Committee, bear in mind that there is very little thanks and much hard work and responsibility attached to the job, but when your Committee is elected do not fail to give them your whole-hearted support during their term of office, never complain about them, but do not fail to lay complaints before them.

"In conclusion, the best advice I can offer you is to keep on in the way you have started, and before long our Kelowna Lawn Tennis Club will become second to none in British Columbia."

(Continued on Page 4)

NO CHANGE IN ROYAL CANADIAN MOUNTED POLICE

OTTAWA, March 15.—The present organization of the Royal Canadian Mounted Police will remain. J. S. Woodsworth, Labour, Centre Winnipeg, had a resolution before the House yesterday calling for the disbanding of the present force and its reorganization, but it was rejected.

FIVE MORE GERMANS ARE KILLED BY FRENCH TROOPS

RECKLINGHAUSEN, Germany, March 15.—French sentries killed three Germans here today when the latter attempted to enter the railway roundhouse. At Buer, a nearby town, two Germans were killed and several, including one woman, were wounded yesterday, when fresh riots broke out. The civilian population and the French troops are seething with hatred.

BRITAIN'S REPLY TO GERMAN "PEACE FEELERS"

BERLIN, March 15.—Great Britain has responded to Germany's recent secret "peace feelers," it is announced here. The British government suggested that Germany make a new and clearer reparations offer to the Entente on her own initiative.

THE CANADIAN ASSETS OF THE L. R. STEEL CO.

BUFFALO, N. Y., March 15.—G. T. Clarkson, receiver for the L. R. Steel Co. in Canada, and Peter White, counsel for the company in Canada, spent today here in conference with the Buffalo receivers. It is understood that the Canadian representatives have accepted a proposition that control of the stock of the Canadian companies is to be vested in the L. R. Steel offices and that, after the creditors in Canada are paid, the United States receivers here are to take charge of the remaining assets. In the event of a forced sale of the assets at this time, it is estimated that the stock holders will receive less than 20 per cent of the \$22,000,000 invested in Steel securities.

BASKETEERS DO WELL AT SUMMERLAND

Kelowna Teams Capture Two Matches Out Of Three

On Thursday last a merry party consisting of fifteen Kelowna basketball players and ten boosters took the s.s. "Sicamous" and proceeded to Summerland, where, after taking dinner at the hotel, they journeyed on to West Summerland and played three games in the gymnasium against local players. The matches were, between the Summerland and Kelowna senior and intermediate teams and the ladies' senior teams, the latter being the first to come off, and were played before a very large crowd, which showed great interest in the game.

The match between the ladies' teams began promptly at 8 p.m. and was a good contest, but somewhat on the rough side, in consequence of which neither team had much chance to score, as the checking was very close. At the end of this game both sides had a score of six to their credit and five minutes extra play was decided on. During this period Miss Alice Brown distinguished herself by star play which turned the scale in Kelowna's favour. She scored two extra baskets and thus the Orchard City ladies were able to return home and report a victory of 10-6.

AGASSIZ CHAMPION COW IS BANQUETED

MISSION, B. C., March 15.—Agassiz Segis May Echo, Holstein cow owned by the Federal Government at the Experimental Farm here, was the guest of honour at a banquet held last night, when over three hundred residents of the valley, together with the leading farm experts and dairymen of British Columbia were present. Champion of the world, the cow during the past year produced no less than 30,886 pounds of milk, or 1,681.25 lbs. of butter, breaking the mark previously held by an American animal. Supt. W. H. Hicks, of the Experimental Farm, acted as toastmaster for the evening. Agassiz Segis May Echo was led to the guest of honour was proposed by P. H. Moore, Superintendent of the Colony Farm, Essondale.

PROGRESS REPORTED BY COMMITTEE

Organizer For Co-Operative To Be Appointed Within A Few Days

The following report was telephoned to The Courier by the Organization Committee of the Co-Operative Growers of British Columbia yesterday afternoon:

"Plans for organization are being pushed to completion, the stage has been reached when it becomes necessary to place the carrying of executive details in the hands of one man and it is expected that this appointment will be announced in the course of the next week. This organizer will be charged with completing and carrying into effect the general scheme of organization as worked out by the organizing committee and with their approval he will select the necessary staff and allot to them their several duties. The office of organizer will be regarded as temporary, the holder may or may not himself become the general manager. Efforts to obtain the very best man for the position of general manager will not be relaxed.

"The Committee are in communication with the new Berry Co-Operative Association with a view to coming to satisfactory arrangements for marketing the small fruit output of our members; the essential point being that we work in collaboration to obtain proper distribution and control of such fruits. Steps have been taken to secure a supply of box material at the lowest possible price and the most favourable terms, and Locals are being asked to send in detailed estimates of their requirements. Statements covering the organization and the re-organization of Locals and their future relationship to the Central have been prepared and will be issued this week.

"Further progress has been made in the direction of determining what assets of the Okanagan United Growers can be taken over by the new organization. It is expected that this matter will be shortly carried to completion. The Provisional Board of Directors is now in session at Vernon and a number of questions are under consideration and will be decided upon in the course of the next few days. The Vancouver Board of Trade are sending a delegation, including Mr. A. M. Dollar, the member elected by the association to sit on our provisional directory. Mr. G. F. Gyles and Mr. Blake Wilson will accompany him and assist the Board by their counsel."

CITY VALUATION SLIGHTLY OVER FOUR MILLIONS

Grant Of \$3,000 Will Likely Be Made To Hospital

All the members of the Council were present at the regular fortnightly meeting on Monday night.

In connection with the minutes of the preceding meeting, the Mayor drew attention to the fact that 26 non-resident pupils were attending the city schools, and that the fee charged them by the School Board was only about half the actual cost of tuition, the remainder of the cost falling upon the shoulders of the ratepayers. He suggested that the Council put upon record an expression of opinion on this matter, and the following resolution was passed accordingly:

"Whereas it is costing the Kelowna School District the sum of approximately \$1,500 per annum for furnishing tuition to non-residents of the City of Kelowna, the Council is of the opinion that all non-residents of the City who are sending their children to the City Schools should pay a reasonable fee towards the cost of providing the means of educating their children."

Mr. L. Holman submitted in person a plan of his property with a view to securing the approval of certain lanes by the Council. The matter was discussed at some length with him, and an arrangement was finally reached which was acceptable to both parties.

Assessor's Report

The following statement of the valuation of the City, as finally revised by the recent Court of Revision, was laid before the Council by the City Assessor:

Land	\$ 1,583,514
Improvements	2,237,650
Land Exemptions	219,600
Improvement Exemptions	197,000

Total valuation \$ 4,237,764
The total assessed value of land and improvements within the City School District but not in the municipality was given as \$187,175, comprising \$100,225 for land and \$86,950 for improvements.

Mrs. Florence E. Sands wrote from England, applying for an extension of leave of absence from her house held under the Better Housing Act, stating that she found she would not be able to return as early as she had expected. The application was granted.

Mr. W. S. Shugg wrote complaining of the condition of Rowcliffe Avenue, upon which he resides, terming it "a disgrace to the city." He stated that, owing to the mud, the only way out at present was by means of passing through other people's property.

The letter was referred to Ald. Meikle, who admitted the street was not in good shape but he had done the best he could last year with the funds available, and an effort would be made to put it into better condition.

Police Report

The report submitted by the Chief of Police for the month of February showed fines and costs imposed amounting to \$255, of which \$52.50 had been collected and paid to the City Clerk. Trade licence money to an amount of \$480 was collected.

The Mayor and City Clerk were authorized to sign and to affix the civic seal to a renewal of the agreement between the City and Mr. James Coupland for scavenging work, on the same terms as last year.

The Mayor mentioned the need of the Poundkeeper having a phone, and it was decided to insist that the official instal an instrument, so that he can be notified of stray stock and enquiries can be made by owners.

Grant To Hospital

The Mayor reported that he had discussed with the Directors of the Kelowna Hospital Society their proposal, recently submitted to the Council, that the City float an issue of \$20,000 worth of debentures for the purpose of building a nurses' home, isolation ward and laundry, and that the amount of the interest and sinking fund charge be made an annual grant to the Hospital. This would entail an outlay yearly of about \$2,000, and in addition the Hospital wanted free water and light, the value of which would average about \$1,000 a year. After thoroughly threshing out the

FRED DEAL ESCAPES THE DEATH PENALTY

VANCOUVER, March 15.—Fred Deal, negro, charged with the murder of Police Constable R. G. MacBeath, V. C., has been found guilty of manslaughter. Sentence was reserved until the end of the assizes.

ALMSHOUSE FIRE COSTS NINE LIVES

BUFFALO, N. Y., March 15.—Six aged and helplessly bedridden women were burned to death in their beds, another lost her life in leaping from an upper window and two attendants perished when fire, following a boiler explosion, destroyed the Allegheny County Almshouse at Angelica last night. There were twenty-four women patients quartered in the building, which was a two-story frame structure. Heroic work on the part of attendants saved the other women from death in the burning building. Charles Sanborn, an attendant, saved three inmates and then perished in attempting to save a fourth.

BRITISH STEAMER LOST WITH TWELVE LIVES

FLUSHING, Holland, March 15.—The British steamer Merville has gone down near Steen Bank with the loss of twelve lives.

CANNERS OFFER REDUCED PRICE ON TOMATOES

Growers Are Very Dissatisfied With Offer Of \$15 Per Ton

The Directors of the B. C. Tomato Growers Co-Operative Association held a meeting in Kelowna last Monday which lasted all day and at which the full board was present, with the exception of Mr. T. Bulman, who is at Ottawa. The object of the meeting was to hear a report from Mr. W. Stonehouse on his work among the tomato and vegetable growers in other districts, also on his interview with the canners in Vancouver regarding the price to be paid this season for soft fruits and tomatoes. Mr. L. Hayes and Mr. E. L. Cross, of the local canneries, were present by invitation at the meeting, and on being asked to state what would be paid by their companies this year for tomatoes, they quoted \$15 a ton for graded tomatoes, which, according to the experience of last season, would work out at approximately \$13 net to the grower. In 1922, \$17 was paid by one of the canneries and \$20 per ton by the other concern.

The directors, after discussion, stated that they could not accept the offered figure as a price which would permit the growers to clear expenses either when growing on half shares or when employing labour.

The following statement was obtained in connection with the question from Mr. H. B. D. Lyons, Vice-President of the B. C. Tomato Growers Co-Operative Association:

"It is possible that a few close-in farmers, who are willing to work very long hours at a bare pittance, might not be out of pocket growing graded tomatoes at \$15 per ton, but if help has to be hired to pick at last year's wages, they will lose money. It is unfortunate that the tomato industry should have a very bad set-back this year, as it has brought a good deal of money into the district. In this connection it may be said that the canneries workers have had more money paid them than the growers, and if the present companies will not pay a fair price, it is to be hoped that, at some future date, another company may start up here. The same state of affairs exists in Ontario and the U. S. A., where the lowest prices are being offered the growers. The high cost of labour here, as compared with Ontario, is given out as one reason why such a low price is offered, but as canners still continue to force Ontario prices for canning tomatoes down, we doubt if this is the only reason. Also, because boxes and cans may be higher-priced this year, there is no reason why the grower should always be the victim. There seems to be a peculiar notion that because the farmers obtained good prices for two years, they should be content with poor prices forever after. The farmer, and this includes the tomato grower, is now at his wits' end to know what to do this season, but it is a certainty that growing crops of tomatoes and losing money by doing so will not benefit him or any one else in the district."

NIGHT SCHOOL CLOSES THIS WEEK END

First Term Of New Institution Has Yielded Valuable Results

The first term of the Kelowna Night School comes to an end this week, and the teachers and pupils are planning to celebrate the occasion by a social evening in the Elks' Hall next Monday night, to which all students will be allowed to bring one friend. The school has met with a generous measure of success, which speaks volumes for the ambitions of the younger people of this city. At the same time those who have had charge of the work admit that certain changes will have to be made next term. For instance, it will certainly be necessary to divide such a large class as the one on bookkeeping into two grades, one for advanced work and one for elementary tuition. In the latter it is intended to include a course for farmers, with forms and books suitable to their calling.

The class in motor mechanics has been most popular and will undoubtedly be repeated next year. By that time it is hoped to have much more equipment of the nature used in demonstrating. This term the class in cabinetmaking would also have been able to make much faster progress if the manual training department had been more complete, much time having to be expended in doing heavy work which might have been done to better advantage by power.

While undoubtedly the demand has been for vocational classes, it is proposed next year to try out china painting and other arts, if suitable teachers can be obtained. It is also intended to institute a class in public speaking, one in advertising and one in scientific correspondence, also if properly qualified instructors are available, the idea being that of the ultimate establishment in this city of a provincial Technical School, where the youth of Kelowna and surrounding district could enjoy the same benefits at present within reach of boys and girls at the Coast. At present there is a very limited choice presented to young people here and training for most trades and professions is denied them unless they leave the community. Such a situation is not in keeping with the ambitions of the majority of Kelowna residents, as, in many cases, these young people do not return here. It is therefore hoped that the Kelowna Night School will lead, eventually, to a flourishing Technical School being established in our midst.

SEISMOGRAPH TELLS OF EARTHQUAKE SHOCKS

ROME, March 15.—A heavy earthquake at a point not far distant was reported on the seismograph at Naples and Foggia at 6.14 and 6.55 o'clock this morning.

GERMANY SAID TO HAVE PEACE PLAN

LONDON, March 15.—Information printed today by the "Daily Telegraph" to the effect that Germany has up her sleeve a peace plan that includes a guarantee to France as well as international supervision of her finances attracted considerable attention here this morning.

LABOUR LEADER ON THE GALT DECISION

OTTAWA, March 15.—"Organized labour is definitely opposed to registration under the Trade Union Act, as suggested by A. R. Mosher, Grand President of the Canadian Brotherhood of Railway Employees and does not intend to be stampeded into changing its attitude and accepting incorporation of trade unions, with all that this may involve, simply because of one decision of the nature rendered by Mr. Justice Galt," declared Tom Moore, President of the Trades and Labour Congress of Canada, in discussing today the decision of Justice Galt.

LABOURITES SENSITIVE ON ROYAL HOSPITALITY

LONDON, March 15.—Denying reports that several members of the Labour Party would attend tonight's dinner at Buckingham Palace to which King George has invited approximately forty prominent politicians, Labour headquarters announced today that Ramsay MacDonald, leader of the party in the House of Commons, will be the only Labourite to attend.

POULTRYMEN ELECT OFFICERS FOR THE YEAR

Annual Meeting Of Kelowna Poultry And Pet Stock Association

The annual meeting of the Kelowna Poultry and Pet Stock Association was held in the Board of Trade Hall on Wednesday, 7th March, there being a fair attendance of local poultrymen. Owing to the illness of Mr. C. B. Latta, President of the Association, who was still in the Kelowna General Hospital, the chair was taken by the Vice-President, Mr. A. I. Dawson.

After the minutes of the previous meeting had been read by the secretary, Mr. R. Johnstone, a discussion took place on the question of co-operative marketing of eggs. No definite decision was arrived at concerning the policy which the association is to adopt this season, but the secretary was instructed to write to Mr. J. R. Terry, of the Department of Agriculture, Victoria, and enquire from him if it would be possible to secure the services of an experienced official of that Department for the purpose of properly organizing the poultrymen of the Okanagan Valley on businesslike lines.

Before adjourning, the following officers were elected for this year: President, Mr. J. V. Ablett; Vice-President, Mr. C. B. Latta; Secretary, Mr. J. E. Britton; Committee: Mrs. Lloyd and Messrs. R. Johnstone, H. N. DeHart, E. Worman and A. I. Dawson.

FORMER QUEEN OF MONTENEGRO DYING

ROME, March 15.—Queen Helena hurriedly left Rome yesterday for Antibes, France, on receipt of news that her mother, former Queen Milena of Montenegro, who has been ill for some time, was sinking.

CHORAL SOCIETY RECITAL

Splendid Rendering Is Given Of Mendelssohn's Hymn Of Praise

An event long looked forward to by lovers of music, the recital and concert given by the Kelowna Choral Society, attracted a very large audience to the United Church on Monday evening. In fact this large building was hardly able to accommodate those who wished to hear Mendelssohn's Hymn of Praise, rendered by local amateur talent, and by eight o'clock every seat was filled. Throughout the entire entertainment every evidence was given by the audience how much the efforts of their fellow townspeople to produce a really good programme were appreciated, and it is safe to say that the musical treat given by the society would gladly be heard again by the majority of those who were present.

The first part of the programme, the recital, began with the Sinfonia, played by the orchestra, consisting of members of the Philharmonic Society, and played in an admirable manner. The first chorus, "All Men All Things," followed, and at once the full power of the choir was brought out with telling effect, and the thorough training of many weeks made evident. This might also be said as regards the various choruses which were sung later. The general effect was at all times excellent and reflects great credit, not only on the members of the society, but also on Mr. J. Borthwick, under whose direction they had become perfect in their work.

The soprano solo and semi-chorus, "Praise thou the Lord," was beautifully sung by Mrs. C. Buck, and the recitative and air, "Sing ye Praise," was entrusted to Mr. F. A. Martin, who gave a very cultured rendering of the solo. This was followed by the chorus, "All ye that cry unto the Lord," which was given with great expression by the choir. Next came the duet and chorus, "I waited for the Lord," which was perhaps the best part of the cantata, Mrs. H. Blair and Mrs. E. D. Braden giving a most pleasing exhibition of talent, and followed by the audience with intense interest and satisfaction. The chorus work was also of very high standard and one can only regret that this part of the master's work is not of greater length.

The tenor recitative and air which followed was given by Mr. T. G.

(Continued on Page 4)

HYGIENE IN THE PUBLIC SCHOOLS

Valuable Address Given Before The Parent-Teacher Association By Miss Jean Urquhart

A large gathering of the members of the Parent-Teacher Association took place at the Elks' Small Hall on Friday evening for the purpose of hearing an address on the work of the Junior Red Cross Society of Canada, given by Miss Jean Urquhart, of Vancouver. A musical programme and social evening had been arranged beforehand, and altogether a very enjoyable time was spent by those present.

Owing to the unavoidable absence of Dr. J. Evans Wright, President of the Association, Mrs. A. Williams, the Vice-President, took the chair and announced that the local association is now affiliated with the other provincial organizations connected with the movement, after which, when routine business had been gone through, the matter of sending a delegate from Kelowna to the coming convention of Parent-Teacher Associations, to be held at the Coast, was taken up. It was decided, in connection with that question, that, if possible, some teacher at the Public or High School would represent the association.

It was then given out that the next meeting of the association would take place on April 2nd, when an address on "Education" will be given by Mr. J. W. Jones, M.L.A. Volunteers were asked for to help make candy and place it in boxes, the sale of which would help to defray expenses in connection with the coming school concert and, after this matter had been settled, that of assisting in the making of costumes for children who are to take part in that entertainment was taken up. Several ladies having offered to help, it was arranged that they meet in a week's time at the residence of Mrs. Mantle and get this work started. A good musical programme followed, songs being sung by Miss Fleming, Mrs. Tuck, Mrs. Trenwith and Mr. C. Gowen and a recitation being rendered by Mrs. DeMara. The chairman then called on Miss Jean Urquhart to address the meeting.

School Hygiene.
Miss Urquhart, who has a very pleasant delivery and who spoke very simply and clearly and in a way that immediately attracted the greatest possible attention from her audience, stated that she would not discuss the work of the Junior Red Cross Society, there being little time to do so, but, as had been suggested to her, would confine her remarks to Hygiene as connected with our public schools and quote a few simple rules which she hoped would be of service to those connected with them, as they made for the preservation of the health of our children.

During the past ten years, the speaker stated, great improvements had been made in the hygienic conditions under which work in public schools is carried on. Previous to this period little, if any, care had been taken to see that children were given the best advantages in respect to sanitary improvements of assistance to them in their studies, the public, up to that time, not having realized the unsuitability of allowing children to spend so much of their early life in unhealthy, or at the best inconvenient, surroundings. During the past ten years, however, very great progress had been made, improvements of all kinds having been gradually introduced in nearly all Canadian schools.

Ventilation.
The speaker next touched on certain conditions absolutely essential to the welfare of school children, the first being proper ventilation of the classrooms. She explained that though this subject had doubtless been brought to the notice of the members of the association by previous speakers, still it was of sufficient importance to render repetition useful. Not only should each classroom be ventilated, but it should be kept in motion and the air should be kept in motion and certain humidity kept up, dry air, such as from old-fashioned box stoves, being injurious to children and the cause of much sickness. The temperature should be kept at approximately 65 degrees. She gave her experience as being that in many provincial schools

BOY SCOUT COLUMN

Troop First Self Last!

Edited by "Pioneer."

13th March, 1923.
Orders by command for week ending
22nd March, 1923:

Duties: Orderly Patrol for week, Otters; next for duty, Cougars.

Parades: The combined Troop will parade at the Scout Hall on Monday next, the 19th inst., at 7.15 p.m., in full uniform. All recruits who have passed their Tenderfoot tests will be invested as Scouts and after the Investiture Ceremony there will be a Judicial Session of the Court of Honour. There will also be a Business Session of the Court of Honour at the Scoutmaster's office on Thursday of this week, at 4.30 p.m.

We did not have room to mention in last week's Column that the Patrol Basketball Championship of the Troop had been won by the Eagles who played and beat every other Patrol in the Troop. Their last game was with the Otters, who had to acknowledge them victors by a score of 17 to 10, a good score for both sides considering they played on a slippery floor for two halves of 15 minutes each only. The runners-up in this league have still to be decided with at least three Patrols having equal chances.

The Scoutmaster has received the following letter from ASM. Southworth, one of our recent visitors from Revelstoke:—

"We arrived home safely Tuesday morning, but we were rather tired after our busy week-end. The boys are all right now and are looking anxiously forward to a return game. I was talking to Sid Kirk (Physical Instructor of the Y.M.C.A.) this evening about a suitable time to come. I had suggested Easter and it seemed very favourable to him. Your fellows could then come and not be hindered by school work as we were when we paid our recent visit to your Troop. I am sure that the boys would be only too pleased to entertain your players during the Easter holidays and if you could let us know soon, we could commence to make arrangements for your coming."

"Our gymnasium season closes at the end of this month and Sid is almost as anxious as we to have you with us when the final exhibition takes place."

"We still have about a foot and a half of snow here but we are sincerely hoping that it will be all gone by April 1st."

"I also wish to take this opportunity to express on behalf of our Troop our sincerest thanks for the many kindnesses shown to our boys during our recent visit, especially to our hosts, the Ladies' Auxiliary, the boys and yourself."

"Hoping to receive a favourable reply in a short time, I remain,

"Yours sincerely,

"(Sgd.) DOUG. SOUTHWORTH,

"ASM, 1st Revelstoke Troop."

This letter crossed one which we had written to Mr. Kirk asking them to approach the Divisional Supt. of the C. P. R. at Revelstoke with regard to making some transportation arrangements, because if we cannot make any, the trip will unfortunately be out of the question for us.

We doubt if the fact is generally known that the registered strength of the Scouts in the United Kingdom now exceeds that of the British Army in officers and men. It is difficult to appreciate the wonderful growth of the Scouts from their small beginning in the so recent year as 1908 to their present figures in Great Britain alone of 22,530 Scouters and 318,549 Scouts, and what happiness this must bring to the originator of the movement, our Chief Scout of all the world, "B.P." He is planning to spend Easter in Canada this year, and to be out West in April or May. We do not know if his plans will permit his leaving the main line of the railway but would indeed like to have the opportunity of welcoming him in person in Kelowna.

A Patrol Leader was instructing a recruit and the recruit appealed to the Scoutmaster—"Sir, didn't you say a Scout smiles and blows his whistle in all difficulties?"

KELOWNA WOLF CUBS

The suggestion given in our last column, that each Cub make a bird house, has been so keenly taken up that we are forced to make a few simple rules to govern the competition. Here they are: Each bird house must be the work of one boy unassisted by another. No part of any house may be made at the manual training school. Boys can ask their parents for suggestions as to the design of the house, but must work such designs out themselves. All houses to be in the Scout Hall by Wednesday, the 21st, with the boy's name attached on a piece of paper or card.

We leave it to the Cub's honour to abide by these rules, and if some really good pieces of work turn up a prize will be awarded and the house shown in a store window for a few days. Now, "Do your best."

Cubs will be surprised to learn that there are no less than 552 different kinds of wild birds west of the Rock-

At the instance of Mr. T. G. McBride, M.P. for Cariboo, a clause providing a penalty for careless picking has been inserted in the bill now before the Dominion Parliament to regulate the sale and inspection of fruit. This will give growers better control over pickers whom they may employ in the future.

The Powell River Pulp and Paper Company will embark this spring on a campaign of development that will represent an expenditure of over four million dollars, to be spread over two years.

For the avowed purpose of protecting the coal mining industry in this province Hon. William Sloan, Minister of Mines, has announced his intention to work for the imposition of a larger tax on fuel oil. Following efforts of this nature, a small tax was imposed several years ago, but it has never been large enough to become effective, though it has netted the Federal Government a considerable revenue.

The provincial police have received instructions from Victoria that no further time will be allowed for the procuring of 1923 motor licences and that those who drive cars without having procured one are to be prosecuted.

Three thousand acres of the finest marginal lands around Sumas Lake are to be subdivided and sold by auction in time for settlement this season. This land was formerly part of the "Railway Belt" and administered by the Federal Government, but has been turned over by the latter to the Provincial Government to handle.

It is expected that the Cowichan Bay Railway will be completed by the end of August this year. This line is now being located, negotiations with various interests involved having accounted for the delay in getting this project started, which will greatly benefit the lumber industry in that part of Vancouver Island.

Reports read at the annual meeting of the B. C. Division of the Canadian Red Cross Society showed that an enormous amount of useful work has been done by the Society in our province during the past year. In Vancouver and Victoria alone some fifty or sixty men, partially disabled veterans of the Great War, are continually employed and needy families all over the province have been rendered practical assistance.

By a recent decision of the Supreme Court of the Province, Orientals who have been fined in a police court for dealing unlawfully in drugs cannot be deported.

The federal ore-testing plant for B. C., the location of which has not yet been settled, will not be used for the purpose of furnishing assays but solely for furnishing mine owners with advice as to the best methods of treatment of samples of ore sent for testing purposes.

Children who have been deaf for years, inmates of the Provincial School for the Deaf and Blind at Point Grey, have had the wonderful boon of hearing music brought to them by listening to radio broadcasts. Two of these cases are so deaf to ordinary sound that they are not able to distinguish any noise of a common nature.

A further sum of forty thousand dollars will be expended by the Provincial Government this year in installing an additional irrigation system in the Grand Forks valley.

ies to the Pacific Coast. Amongst these there are 20 varieties of Woodpeckers, 23 Warblers, 29 Ducks, 14 Flycatchers, 14 Gulls, 15 Hummingbirds, 16 Owls, and 30 varieties of Sparrows. This gives lots of scope for Collector Badges, and on this matter we would ask you, if collecting eggs, not to take more than one egg from a nest, and not to tell your chum where the nest was. Let him find a nest for himself, and by so doing the chances are not more than one egg will be taken from any single nest.

Encouraged by the success achieved by the basketball teams lately we have made a very bold move, and have challenged Mr. Weddell to gather a junior Scout team to play the Cubs in the near future. Mr. Gayton looked very doubtful when asked to choose the team, but being a great player himself will doubtless coach the five selected to a high state of perfection before the match. We take this opportunity to warn the Rutland Cubs that it will be their turn later.

We wish to make it clear that no more badges or stars will be given out until the Scout concert. Directly six boys win their first star we shall start a special class of instruction for the second, to gain which means close application to the studies involved. A cubmaster is not allowed to examine boys for the second star, nor for a Proficiency Badge.

WESTBANK

Mr. B. McDonald, of Kelowna, was a business caller on Monday.

Mr. G. Kingsbury, the contractor laying the metal fluming, is making splendid progress.

Messrs. W. Brown, W. B. Gore and T. Wells, who were very ill last week, are now improving.

Mr. and Mrs. S. Hewlett and their little baby returned last Saturday from Kelowna, where Mrs. Hewlett and the child spent last week.

Mr. A. Dobbin is now having a new mansion built near his sawmill. He has Mr. S. Mackay doing the building.

Engineer Groves, of Kelowna, was here Wednesday and Thursday, planning out the distribution system with the Trustees.

The weather now being fine, the roads have again started to dry and Road Foreman W. Ball has again commenced his repair work.

A gospel meeting was held at the Schoolhouse Sunday evening by Rev. Mr. Turner, of England. A large crowd was present to hear his sermon, the room being packed to the doors.

We were disappointed Tuesday night by the lateness of the Carswell-Baxter movies. They arrived on this side of the lake at half-past four, but on account of the bad roads and their new car, they did not arrive here until after eight o'clock.

Friday evening, at the School, a hard times dance was given by the Library and Piano Fund. Music was furnished on the piano by Mrs. Drought and Mr. Ewer did the collecting. It was not so lively until after supper, which seemed to give everyone a high spirit. The circle-ones were the hit of the evening and all enjoyed their lively form. The costumes worn by most of the dancers certainly reminded us of the low prices of apples. The first prizes were given to Mr. H. Moffat and Mrs. W. Brown.

KELOWNA-PENTICTON STAGE

Established May, 1920, by E. A. Agur.

What the Service Means to
You in Time and Dollars

Here are facts which you should know.

Figure up their Value to you in your Business.

First.—You can take the KELOWNA-PENTICTON STAGE at 9.00 a.m., which connects with the K. V. Ry. Westbound train at West Summerland, and arrive in Vancouver at 11.00 p.m. the same day.

A saving in time of at least eleven hours.

Second.—The fare to West Summerland via the Kelowna-Pentiction Stage is \$3.10. Railway fare from West Summerland to Vancouver is \$9.75.

By far the cheapest route to the Coast.

Third.—DEPENDABILITY. The Kelowna-Pentiction Stage operates a daily service—Sundays excepted—which is unexcelled in the valley for punctuality.

Fourth.—COMFORT. 7-passenger McLaughlin car, equipped for winter travel with heaters, snug-fitting curtains and warm rugs.

Phone 376-R3 or inquire at hotels for further information.

G. W. CUNNINGHAM, Auctioneer. 30-1c

BIG YEAR FOR AUTOMOBILE INDUSTRY

Studebaker President Estimates Production of Cars in First Quarter May Total 750,000

(By A. R. ERSKINE, President, The Studebaker Corporation.)

A brief review of the history of the automobile industry may furnish the correct basis for estimating its future prospects.

The manufacture of automobiles in the United States as an industry began in 1903, when 11,000 cars of the whole-sale value of \$12,650,000 were produced. In eighteen of its twenty years' history, production increased progressively each year, and decreased from business causes in but one year, namely 1921. Its decrease in 1918 was due to government restriction on account of the war.

Production of 1922 establishes a new record of 2,500,000 cars and trucks, valued at \$1,600,000,000 wholesale, which is 50% increase over 1921 and 14% above 1920, the industry's previous best year.

The automobile industry ranked eighth in 1914 among the largest in industries, third in 1919, and second, probably, in 1922. None other of our seven largest industries has a twenty year record of increased growth comparable to the automobile record, and therefore its stability is proved.

Sixteen million motor vehicles were produced in these twenty years, about 10% of which were exported, and 11,000,000 are in service today. Automotive products lead our exports of finished goods, while our automobile imports have shrunk to less than 1,000 cars per annum. Canada, Mexico, South America, Australia and Europe are our best customers at present.

It is estimated that automobiles now carry seven times as many passengers as railroads, and make twice the mileage. Seventy per cent of all cars in use were purchased at less than \$1,000, and 94% at less than \$2,000. Three million cars and trucks are owned on farms, and the horse has almost disappeared from the streets of our cities and towns.

Despite the fact that automobiles are now essential means of transportation, federal, state and municipal governments will this year collect \$400,000,000 of taxes from manufacturers and users, in excise, licence and personal property taxation. Apparently ignoring the useful work which automobiles do and the necessary part they play daily in our business and social activities, both urban and rural, legislators generally have by exorbitant taxation used their power, whether they realized it or not, to curtail the use of automobiles and cripple the industry.

Based on the better condition of business, agriculture and finance, at home and in many countries abroad, it seems that 1923 will be a year of activity and prosperity for our industries. Many of them are operating at capacity at present, and orders being received indicate a continuance of activity.

After closing its greatest year, the automobile industry, being a leader rather than a laggard, expects 1923 to be a big year. Some estimates are made of 3,000,000 car production, but the long projection these involve might be shortened by predicting 750,000 cars for the first quarter.

Big game of various kinds is stated to be very plentiful along the surveyed route of the Trans-Provincial Highway to be built this year between Princeton and Hope, and it has been decided to create a National Park in this region in order to preserve this asset, which would assuredly otherwise be destroyed within a very short space of time. It is proposed to disallow any shooting in this park, which will extend five miles on each side of the new highway. This will create a sanctuary in which game can increase and where wild animals of all kinds can take refuge, a system of game protection which has had excellent results in other provinces and which might well be extended to our own.

A foundry and boat building plant is being constructed at Prince Rupert by Old Country capital.

AUCTION SALE

Favoured by instructions from Mr. E. T. Money, the undersigned will offer for sale by Public Auction at the family residence, one-quarter mile East of the Rutland Store, on

TUESDAY, MARCH 27th At 2 p.m.
a quantity of very desirable Furniture and Household Goods, comprising the following:—

Shovels, Axes, Rakes, Hoes, etc.
Wheel Barrow, 15 Wyandotte Hens.
Many other articles not mentioned.
Terms—Cash.
G. W. CUNNINGHAM, Auctioneer. 30-2c

EAST KELLOWNA

Very little is being done on the orchards just now. The land is so wet and soft that even pruning is difficult. The roads are bad, especially the Lower Bench road, which sadly needs some attention.

We congratulate Col. Lindsay on being the first in East Kelowna to install a radio.

Mr. J. E. Reekie is at the Coast.

It is astonishing how many near-accidents occur and nobody hurt. On Thursday last, a buggy driven, we hear, by Capt. Maude-Roxby, went over the bank at Miller's grade. The driver jumped in time, the buggy turned upside down and was smashed but the horse was not seriously hurt. This is the second accident of a similar nature at this spot. Also this week, on a cold morning, one of our ranchers, whose name we omit lest his insurance policy should be cancelled, put a 5-gallon can, of oil as he thought, into the oven to thin it. He forgot about it till he noticed some peculiar fumes. He took the can out with a cloth, as it was too hot to handle, and found it was the gasoline tin. He is still wondering why it didn't explode.

Some of the shippers are very sore at the success of the growers in forming the new Co-Operative. We saw a letter from one of them to a grower who had cancelled his contract too late. He said he would hold the grower to his contract and the latter would be grateful to him when he received double the price paid by "this noisy new fad." We don't wonder this shipper is annoyed, just when he had trained the growers to hand their fruit to him unconditionally, they leave him. He must feel like the man who had trained his horse to live on a straw a day when the animal died.

The Water Trustees had two meetings this week, on Friday last and Tuesday. This was necessitated by the fact that the Bank wanted the tolls by-law passed. Before doing this the spring work estimates had to be carefully gone over with the Manager. Despite cutting everything to the minimum, repairs to the system will cost \$2,226, to be paid by tolls, and renewals and new construction will cost \$6,000, to be paid by advances from the Conservation Fund. A big problem is the steel syphon in Canyon Creek. It should be scraped and painted and new sills provided. Should we spend a couple of thousand dollars on this work or take a chance and wait till next year? It is such problems that in our opinion are more strictly the work of the Trustees. We know of one District in which the Trustees hold only sixteen meetings in the year simply because people don't worry them about details.

To prevent the unpleasant experience of last year when the reservoir did not fill, the Trustees are keeping a record of the snow on the watershed. Mr. Wardlaw reports that the snow is two feet deep with a water equivalent of six inches, which, allowing for seepage and evaporation, should equal one-third acre foot of water over the whole watershed, which is quite good. A later report says there is 36 inches of snow with a water equivalent of 10 inches and it was snowing heavily.

DOMINION TO IMPORT LIVE STOCK

Department of Agriculture To Bring Breeding Animals From Great Britain

Five Shire horses, as well as a number of sheep and swine, and, perhaps, a few cattle, are to be imported for breeding purposes into Canada from Great Britain by the Dominion Department of Agriculture this year. The horses are being donated to the Government by the Shire Horse Society of Great Britain. The Director of Experimental Farms and the Dominion Animal Husbandman went to England to assist in making the selections of the horses at the London Horse Show, which was held on the 22nd and 23rd of February. It is intimated that these horses will form the nucleus of a large stud of Shires to be maintained at one of the western Experimental Stations. The hogs to be imported will include Yorkshire, Tamworth and Berkshire boars of bacon type.

While overseas, occasion will be taken by Mr. Archibald, the Director of the Experimental Farms System, to visit Denmark and make an investigation of the bacon swine industry, more particularly with regard to breeding and feeding methods employed in that country.

The new Pacific Starch plant at South Westminster was partially destroyed by last week. No fire hydrants were nearby and it took almost superhuman efforts to save this new factory from being a total wreck.

"Built-in-Canada"

LIGHT-SIX TOURING CAR (1923 SERIES) \$1375

The 1923 series Light-Six Touring Car has been a dominant feature of all the automobile shows.

It is handsome in appearance with a harmony of line previously confined to high priced cars. It is exceptional in economy of purchase and maintenance.

The new body is all steel, even to the framework, and is finished in baked enamel. Cushions are ten inches deep and upholstered, as usual, in genuine

leather. There is generous room for five persons in ease and comfort.

The chassis remains practically unchanged. It is essentially the same splendid automobile that has delivered satisfaction to a hundred thousand owners throughout the world.

The new one-piece, rain-proof windshield gives unobstructed view to the driver. The quick-action cowl ventilator and the tight-fitting curtains are, among many unusual items of equipment.

SELECTING BREEDERS FOR EGG PRODUCTION

(Experimental Farms Note)

As the time approaches when the breeding pens will have to be mated it becomes necessary to give careful attention to this, the most important work of the season.

The male selected should be one who is the son not only of a high laying hen, but of a hen having the power to transmit the quality to her daughters. When, after careful study of records, it has been decided to use a male from a certain dam, the next point is selection of a promising specimen. Try to maintain size in the flock by choosing a bird as near standard weight as possible. More important still, however, is it to select a bird with constitutional vigour—one with a broad back and with the width carried well back to the tail, and having also a good depth of body. The head—and this is most important, because the vigour of the bird is expressed in his head and eye—should be clean-cut, free from coarseness, and with the face clear of wrinkles. The eye should be prominent and piercing.

To such a male mate the requisite number of females. This will depend on the breed and the conditions under which the birds are being kept. For American breeds such as the Plymouth Rock or Wyandotte from ten to twelve will make a satisfactory pen. For Mediterranean breeds, such as the Leghorn, about fifteen females may be used; but in all cases where the breeders have free range a larger number of females may be used.

Yearling hens make ideal breeders, but older hens or well developed pullets will also give excellent results. In selecting these birds also keep constitutional vigour in mind. Select those birds having capacity, as evinced in long, broad and deep bodies. Frequently a bird may be deficient in one of these dimensions, i.e., it may be a little short in the back; but if it is broad and carries the width well back to the tail, and shows a good depth, it may make up in extra breadth and depth what it lacks in length.

Here, again, as in the male, the head is most important. The clean-cut face and prominent, piercing eye are the marks of vigour and productiveness.

FORM No. 9—LAND ACT
Form Of Notice

VERNON LAND DISTRICT
DISTRICT OF YALE

TAKE NOTICE that the Kelowna Sawmill Company, Limited, of Kelowna, B. C., occupation a Company duly incorporated under the Statutes of British Columbia, intends to apply for permission to purchase the following described Lands:—Commencing at a post planted at the most Easterly corner of District Lot Four Thousand and Thirty-eight (4038); thence north fifty-one degrees and thirty minutes (51° 30') West to the most Northerly corner of District Lot Four Thousand and Thirty-eight (4038); thence in a straight line to the South-West corner of District Lot Four Thousand and Eighty-three (4083); thence following the Southerly line of said District Lot Four Thousand and Eighty-three (4083) to the North-West corner of Block Fifty-two (52) according to Registered Plan Four Hundred and Sixty-two (462); thence South-Westerly along the high water mark of Okanagan Lake to the point of commencement and containing four and six tenths (4.6) acres, more or less.

WM. LLOYD JONES,
Agent for Kelowna Sawmill Company,
Limited (Applicant).
Dated, January 24th, 1923. 27-10c

Legal processes are now under way by which the holdings of the Canada Copper Corporation at Allenby will be transferred to the Allenby Copper Company, a subsidiary company of the Granby Copper Company, Ltd. It is estimated that between seventeen and eighteen million pounds of copper will be produced annually at Allenby by this new company, though the ore bodies there are low grade, averaging less than two per cent.

THE KELOWNA COURIER

Okanagan Orchardist.
Owned and Edited by
G. C. ROSE.

Circulation, 1,200

SUBSCRIPTION RATES
(Strictly in Advance)

To any address in the British Empire \$2.50 per year. To the United States and other foreign countries \$3.00 per year. The COURIER does not necessarily endorse the sentiments of any contributed article. To ensure acceptance, all manuscript should be legibly written on one side of the paper only. Typewritten copy is preferred. Letters to the editor will not be accepted for publication over a "nom de plume"; the writer's correct name must be appended.

Contributed matter received after Wednesday noon will not be published until the following week.

ADVERTISING RATES
Classified Advertisements—Such as For Sale, Lost, Found, Wanted, etc., under heading "Want Ads." First insertion, 15 cents per line; each additional insertion, without change of matter, 10 cents per line. Minimum charge, per week, 30 cents. Count five words to line. Each initial and group of not more than five figures counts as a word. Filing fee for box numbers, c/o The Courier, if desired, 10 cents extra.

Transient and Contract Advertisements—Rates quoted on application. Legal and Municipal Advertising—First insertion, 15 cents per line, each subsequent insertion, 10 cents per line. Contract advertisers will please note that, to insure insertion in the current week's issue, all changes of advertisements must reach this office by Monday night. This rule is in the mutual interests of patrons and publisher, to avoid a congestion on Wednesday and Thursday and consequent night work, and to facilitate publication of The Courier so as to reach country customers before Saturday.

THURSDAY, MARCH 15th, 1923

ANNUAL MEETING OF
LAWN TENNIS CLUB

(Continued from Page 1)

The first business of the meeting was the election of officers for the coming year. Dr. Boyce was re-elected President and Mr. E. Dart, Vice-President by acclamation. Mr. A. Carruthers having resigned as Hon. Sec. Treas., Mr. E. W. Barton was unanimously elected to that office.

Balloting then took place for the Committee and resulted in the election of the following: Mrs. Lyell, Mrs. Simeon, Messrs. R. H. Hill, R. H. Stubbs, W. C. Spencer, W. Metcalfe, A. Carruthers, H. G. M. Gardner, F. Laxon.

The financial report was the next business on the agenda, copies of the balance sheet having been circulated prior to the meeting to all members and Trustees. The Secretary made a short statement on the financial position, and all were agreed that it was a most excellent showing for the first year of the reorganized Club.

Mr. Aitkens was thanked for his past services as Auditor and was asked to accept that position again.

Mr. T. G. Norris kindly offered to render legal assistance to the Club, if required, an offer that was gratefully accepted.

The question of adding new courts was next taken into consideration and after some discussion it was decided to commence the construction of new courts as soon as soil conditions permit. In this connection a vote of thanks was passed to Mr. Dart for having erected a fence on the East side of the Club grounds, and for doing the preliminary ploughing, grading and filling for the new courts last autumn.

A vote of thanks was tendered to Dr. and Mrs. Boyce for their renewed evidence of goodwill in having donated to the Club an additional acre of land lying south of the existing Club grounds, also to the retiring Sec. Treas. for the very excellent work he has done for the Club since its reorganization.

It is the general opinion that the Club can confidently look forward to a large increase in membership this year, and it is quite possible that three new courts, making six in all, will be in use before the close of the season.

The entrance to the courts on Harvey Avenue will be provided with a good sound fence and carriage gateway, the roadway inside being bordered with grass plots and shrubs, and the whole appearance and condition of the courts and the surroundings will be kept in a way that will be pleasing to the eye and a credit to the Club.

Prospective members are reminded that, according to the Constitution, the entrance fee will be increased on and after June 1st, and that therefore it is desirable to send in their names for election as soon as possible. Information on this point will be gladly furnished by the Secretary, Box 428, City.

GLENMORE

Business at the last two Council meetings has largely consisted of assessment matters, letters, valuing land, etc., and very shortly it will be decided what rate shall be struck. The Council is naturally desirous of keeping the rate as low as is consistent with collecting sufficient revenue to conduct the business of the municipality. Naturally the commencement of the new business necessitates the expense and formation of same, also tools and equipment that should not for the main part occur again.

Mr. G. F. Bolton has asked that the new road that runs through his place be preserved, that he be recompensed for the bridge he erected and, as he is giving the land upon which the present road is constructed to the municipality, that the portion be made over to him containing the unused government road. To make the road where it was originally surveyed would entail large expense, as quite a deep gully would have to be filled, accordingly the Council has decided to accept Mr. Bolton's suggestion and the present road will be maintained.

As the Clerk was in imminent danger of writer's cramp, it was decided to purchase a typewriter locally.

Congratulations to Mr. and Mrs. W. H. McDougall on the arrival of a son.

The camp of the Glenmore Irrigation Company is being moved in preparation for an early start on the season's work.

The service in the Schoolhouse on Sunday evening was conducted by the Rev. Mr. Campbell. The Rev. J. Dow will have returned in time for Sunday, the 18th.

The Glenmore Social Club evening, which was to have been held at the home of Mrs. P. A. Lewis on the 20th, has been unavoidably postponed. The next meeting will be announced later.

Ratepayers will be interested to know that a grader for the road work has been purchased and that as soon as it comes to hand the roads will be put into shape. Until that time, car owners will be well advised to keep off the roads except for business purposes, as they are very rutty in places.

Pheasants on Tuesday morning looked quite forlorn when a white world told them that the mating season was not yet here.

Bluebirds were busy round their old haunts early on Wednesday morning, in spite of the very heavy frost.

Mr. Robert W. Caldwell, of Kirkcubrightshire, Scotland, arrived on Thursday last and is the guest of Mr. and Mrs. George Reed.

The regular monthly meeting of the Glenmore Fruit Growers Association was held on Monday evening in the School. There was a good attendance of members and several visitors.

Mr. R. W. Corner, delegate for Kelowna District, gave an account of the organization's activities to date.

Mr. Corner was the choice of the Glenmore contract signers as director of the Kelowna Exchange new directorate, defeating the former managing director, Mr. G. A. Barrat. A committee was appointed to work in conjunction with committees appointed by other districts to secure the election of the chosen nominees. Messrs J. N. Cushing, R. L. Dalglish and W. Wallace are the committee chosen. Glenmoreites figure that the services rendered by Mr. R. Corner on the Organization Committee and also his record as President of the local U.F.B.C. and local Fruit Growers Association should ensure his election.

Mr. J. W. Jones, M.L.A., spoke on legislation of the 1922 session and responsibility of the government. The subject was treated in a most interesting manner and, as is usual with Mr. Jones in his political affairs, there was no "muddling."

Since forming our municipality in Glenmore, much of the general legislation does not affect us, as we are governed by the Municipal Act entirely.

The Secretary advised the members that at our April meeting he has arranged for the attendance of Mr. W. T. Hunter, District Horticulturist at Vernon, and Mr. H. H. Evans, the "bug expert," to address the meeting. Members would be well advised, in view of the attendance of these gentlemen, to keep the date, April 9th, free. These two speakers can give a world of information on most important matters concerning our industry.

Another very pleasing announcement was that the membership of our Local now numbers 54.

Friends will be glad to know that at the time of writing there is a slight improvement in Ralph Connor's condition.

THE CHORAL SOCIETY RECITAL

(Continued from Page 1)

Griffith, who, although suffering from the effects of a bad cold, sang well. Another chorus, "The Night is Departing," came next, followed immediately by the Choral, which was sung unaccompanied. The blending of the various voices in this latter portion of the great masterpiece will not be easily forgotten by those who heard it. To many it seemed the climax of the whole work. Next came the soprano and tenor duet, "My Song shall always be Thy Mercy," by Mrs. C. Buck and Mr. S. J. Weeks, given with great earnestness and care. The final chorus, "Ye nations, offer to the Lord," gave the audience once more an opportunity to hear the full choir and was rendered splendidly. Long applause, which had been suppressed throughout the singing of the work, followed, showing that the audience fully appreciated and understood that the music which they had listened to was not only one of the most tuneful compositions of the greatest of sacred music composers, but also represented much hard work and special effort on the part of those who helped to make it possible for such a work to be heard in Kelowna.

Before mentioning the second part of the programme, it would be quite unfair not to mark the fact that the orchestra had had only one week in which to practice their portion of the work, and it will strike all who heard them on Monday evening as wonderful that they were able to take on their portion of the difficult performance with such great ability in such short time. Mrs. A. J. Pritchard, who is already known to all in Kelowna as a most accomplished musician, excelled herself in the pianoforte accompaniments.

Concert

The second part of the programme, the concert given by local artists, followed the recital after a short interval and was also much enjoyed by the audience.

The first item was a very fine solo, "Gwlad y Delyn," very pleasingly sung by Mr. T. G. Griffith, and drew an encore, "Absence," which also gave the

singer an opportunity to exhibit his powerful but well modulated voice.

The second song, "When You Come Back," was given by Mrs. E. D. Braden. This lady is always a favourite with Kelowna audiences and her rendering of this charming song also drew an encore, "An Old Grey Owl."

Next came a recitation by Mrs. Ballard, "A Story of the Soudan," which was much appreciated, and as an encore another short recitation, "All on a Summer's Day," was given.

The Choral Society then rendered a glee, "Cloud-Capt Towers." This very enjoyable composition was excellently rendered, the various harmonies showing that the members of the society can take advantage of all pleasing musical effects.

A violin solo by Mr. Jerry Hart, a new-comer to Kelowna, thoroughly delighted the audience, who insisted on an encore. Mr. Hart responded by rendering "Souvenir" with fine tone and expression, which resulted in another encore being called for. He then played, by special request, "Love Sends a Gift of Roses."

Next came a song by Mrs. J. Trenwith, who sang "All Joy be Thine." This composition gave the singer a chance to display her wonderfully rich voice and the encore which followed, "The Carnival," was also well received.

Mr. E. O. MacGinnis rendered, by request, "The Requiem," followed by "A May Morning," both of which he sung in his best style.

The last item on the programme, "Hail, Bright Abode," from "Tannhauser," was rendered by the chorus and

orchestra with good technical execution and precision, and the singing of the National Anthem brought to a close a really wonderful evening's entertainment which was enjoyed by approximately four hundred people.

The thanks of the Choral Society are due to the committee and officials of the United Church for the use of the building for the occasion, and also to Mr. H. B. D. Lyons, for the loan of the beautiful floral decorations, and to the lady members of the society who provided tea and other refreshments to those who participated in the recital and concert.

LAND REGISTRY ACT
(Section 160)

IN THE MATTER OF AN undivided one-third (1/3) interest in West 50 feet of Lot 2, Block 4, Map 462, City of Kelowna.

PROOF having been filed in my Office of the loss of Certificate of Title No. 16863a to the above-mentioned lands in the name of Wong Ung and bearing date the 24th February, 1910, I HEREBY GIVE NOTICE of my intention at the expiration of one calendar month from the first publication hereof to issue to the said Wong Ung a provisional Certificate of Title in lieu of such lost certificate. Any person having any information with reference to such lost Certificate of Title is requested to communicate with the undersigned.

DATED at the Land Registry Office, Kamloops, B. C., this 7th day of February, 1923.

Seal of the Land Registry Office of British Columbia, Yale District.
Date of first publication: 15th February, 1923. 26-5c

Want Advs.

First insertion: 15 cents per line; each additional insertion, 10 cents per line. Minimum charge per week, 30 cents.

In estimating the cost of an advertisement, subject to the minimum charge as stated above, each initial, abbreviation or group of figures not adding five counts as one word, and five words count as one line.

If so desired, advertisers may have replies addressed to a box number, care of The Courier, and forwarded to their private address, or delivered on call at office. For this service, add 10 cents to cover postage or filing.

HARRY B. EVERARD, Secretary. 30-1c

IN THE MATTER OF THE ESTATE OF JAMES MASSON HARVEY, Deceased.

All persons having any claim or demand against the estate of the above deceased who died at Kelowna on the 18th day of December, 1922, are required to send in their claims to George Campbell Harvey and Charles Harvey, the Executors of his estate, or to the undersigned at Kelowna, B. C., on or before the 8th day of April, 1923, after which date the estate will be dealt with having regard only to claims then received.

Dated, this 8th day of March, 1923.

HERBERT V. CRAIG, Solicitor for the Executors. Kelowna, B. C. 30-1c

SCOTTY CREEK DEVELOPMENT DISTRICT

Tenders with offer, strictly cash, for about 400 feet of 12 x 12 flume, 3 years old, will be received by the undersigned not later than the 31st March.

HARRY B. EVERARD, Secretary. P.O. Box 181. 30-1c

MISSION CREEK PROTECTION

The advisability of forming a District under the Dyking, Drainage and Development Act to take care of Mission Creek will be discussed at the next meeting of the Kelowna Local of the U.F.B.C., to be held in the Mission Creek Schoolhouse on Tuesday, Mar. 20th. All interested should make it a point to attend. 30-1c

BIRTHS

McDOUGALL—On the 8th inst., to Mr. and Mrs. W. H. H. McDougall, a son. 30-1p

PENTECOST—On March 13th, at the Kelowna General Hospital, to the wife of P. Pentecost, a son. 30-1p

CHURCH NOTICES

BAPTIST CHURCH, 11 a.m., Sermon topic, "The Soul Afloat," 7.30 p.m., Evangelistic Meeting. The Pastor will preach. Topic, "The Search for Faith." You are cordially invited to attend these services. Bring your friend.

UNITED CHURCH, 11 a.m., "Belonging to the Church," 7.30 p.m., "Common Honesty."

A very enthusiastic meeting of the Armstrong Athletic Association was held last week at which it was settled that Armstrong will have a very strong across team this coming season, ready to compete with teams from other Okanagan points.

Local and Personal

Miss L. Thompson, who was paying a visit to friends in Kelowna, returned to Vancouver on Tuesday.

Mr. T. C. Macnabb, C.P.R. Superintendent, Revelstoke, spent last Tuesday in Kelowna, returning north yesterday.

Mrs. T. L. Hicks returned on Wednesday after a prolonged stay at the Coast, her health being greatly benefited by the change.

Mrs. J. H. Broad is confined to the house with an attack of influenza. Mr. Broad and Miss Blakey are expected to return to Kelowna from Calgary at the end of this week, both being now convalescent.

Mr. W. Stonghouse returned last Sunday from his trip to points along the C.P.R. main line and the Coast, undertaken on behalf of the recently formed Vegetable Growers Co-Operative Marketing Association.

Mr. and Mrs. H. V. Craig left on Saturday for the Coast, where Mr. Craig has an important case to argue before the Supreme Court at Vancouver. He expects to return to Kelowna in about a week's time. Mrs. Craig will visit friends at Victoria and will be away for three weeks.

Mr. R. Rowley, of East Kelowna, whilst working at Mr. Affleck's house had the misfortune to break his left arm through a ladder slipping from the building. Mr. Rowley had a chisel in his hand which he had the presence of mind to throw away. Mr. Jones-Evans took the injured man to the Kelowna Hospital shortly after six o'clock Tuesday evening.

Miss Jean Urquhart, Director of the Junior Red Cross, was a guest at the Palace Hotel several days last week, leaving for the north on Friday. This lady made a great number of friends during her short stay in Kelowna, who were all greatly struck with her extreme capability and the earnestness with which she works for the cause of the Red Cross. All who met her hope that she will be able to visit this part of the province again.

At the usual monthly meeting of the Orchard City Lodge of the Sons of England Benefit Society held on March 7th a good report was put in, showing that this branch of the society is making marked headway in this district, following a successful financial year.

New candidates are continually being initiated into the membership keeps increasing. Those who wish to receive information about this lodge, which is doing excellent work of many kinds, should get in touch with the secretary, Mr. W. S. A. Budden.

News was received in Kelowna this week of the death at her home in Chicago of Mrs. Ellen Hardy, mother of Mr. A. Hardy, of this city. The deceased lady, who was one of the pioneers of the Boundary district, lived to the advanced age of ninety-three years. Her death will be greatly regretted by all who knew her in the early days of the province. She was also the mother of Thomas, Neil and Edward Hardy, all well-known old-timers in the Interior. Her daughters who survive her are G. Senauer, of San Antonio, Texas, Mrs. G. Wilson, of San Francisco, Mrs. J. W. Killian and Mrs. J. Vallee, of Chicago. Another son, Mr. Duncan D. Hardy, is also a resident of the latter city. The interment was at the Roschill cemetery.

The Elks' baseball team held a banquet at the Palace Hotel on Tuesday evening at which fifteen players were present, including several lodge officers. Mr. T. G. Norris presided and at the close of the repast presented the medals to the players of last season, which had been given them by the A. J. Reach Company of Vancouver for winning the Kelowna Baseball League championship. A pleasant time was then put in listening to speeches by nearly all who were present, after which the following officers were chosen for this year: President, Dr. J. Evans Wright; Manager, Mr. J. E. Spurrer; Secretary, Mr. R. J. Webber. The captain of the team, it was decided, will be appointed later on. The manager was instructed to go ahead with the necessary organization for the coming season.

The "Old Maids' Convention" was again staged at the Wesley Hall last Thursday evening by the Young Ladies Bible Class of the United Church. It was once more a cause of a great amount of merriment, as the young ladies displayed extraordinary talent in converting themselves into most unflattering females of uncertain age.

Mr. A. E. Hill excelled himself as "Professor Pinkerton" and the others who took part in the performance acted their parts very well. Misses Florence Cartridge, Jean Kincaid, Bessie Thompson, Dorothy Brown and Ruth Brown were unable to play and their places were filled by Mrs. A. E. Hill and Misses Ethel Austin, Bertie Geon, Dacia Sturtridge, Margaret Fumerton and Phyllis Teague. This pleasing performance, which caused hearty laughter owing to the numerous local allusions, was a financial success. To many bachelors in the community it would have been an education in itself.

A meeting of the Okanagan Horticultural Club was held in the office of the Department of Agriculture, Kelowna, on Friday, the following members being present: Messrs. W. T. Hunter, R. H. Helmer, H. H. Evans, J. A. Leavens, A. L. McLarty, R. P. Muir, H. French, T. M. Anderson, M. H. Ruhman, T. Tait, H. Edwards and B. Hoy. Various horticultural problems were discussed with a view to coming to a common understanding as to the best recommendations to make to growers. Among these were that of the internal break-down of the Jonathan apple, leaf roller, blister mite, cover crops and the various apple varieties. The members of the club were of the opinion that all experiments and recommendations relative to these problems now being carried on should be continued and plans were discussed for undertaking new work on problems of similar nature not yet being taken care of.

Mrs. J. Sproule returned to Vancouver on Friday.

Mr. and Mrs. R. Magee and family left on Tuesday for Wolsley, Sask.

Work on the Ellison cut-off road, which was furnishing employment to seventeen married men, has been temporarily suspended owing to lack of funds.

Three families, who reside in the vicinity of the City Park, are greatly distressed at the loss of pet dogs, which were poisoned yesterday. So far, it is not known who placed the poison within reach of the animals.

Capt. Cates, who made many friends during his residence in Kelowna for a few months a couple of years ago, has returned to his old love and has abandoned the Interior for the lure of the salt sea waves. He has built a fine oil-burning tug which he has named the "Radio" and he skips the craft himself. The tug will ply out of Vancouver.

While in a state of despondency, caused by his worrying over the fact that he might not be able to carry out his portion of a contract to grow a crop of tomatoes on the property of Mr. W. Chamberlain at Benvoulin, a Japanese named Tokujiro Kitamura committed suicide on Sunday afternoon last by hanging himself. It appears that he attached a rope to a joist, stood on a high stool, tied a noose around his neck and then kicked the stool away. When discovered he had been dead for several hours. An enquiry as to the circumstances surrounding this tragedy was held by Coroner E. Weddell on Monday afternoon in the provincial building, when further facts were brought out that the deceased was thirty-five years of age, had been in this district seven years and had a wife and a boy eight years of age, who left for Japan last December and who are expected to return to Kelowna very shortly. The deceased had only recently gone to live on the Chamberlain place and was occupying a small shack by himself, therefore his death was not known till several hours after it occurred. The funeral took place at the Undertaking Parlours of the Kelowna Furniture Company on Tuesday, interment being in the Kelowna Cemetery.

CITY VALUATION SLIGHTLY OVER FOUR MILLIONS

(Continued from page 1)

matter, the conclusion had been reached that it might be wise to defer construction for the present, owing to prevailing financial conditions, but that the City should make an annual grant in the same way as other cities in the Interior. The amount suggested was \$3,000, being the sum already proposed of \$2,000 plus the cost of water and light. He thought it advisable to make a grant in lieu of the latter, and the Hospital could then pay their water and light bills like any other consumer.

The question was discussed at some length by the Council, and it was pointed out that a grant of \$3,000 a year would involve a tax of 1½ mills, so that, if the tax rate is to be kept down to that of last year, it will be necessary to make a marked reduction in the ordinary civic expenditure upon other public requirements.

In order to ascertain whether further economies can be effected, the estimates, which had been discussed in committee a week previously, were again taken under consideration and the pruning of several items was discussed. The Board of Works, Parks and Water Departments were indicated as the most likely victims, but a final decision will not be reached until next Monday night in committee.

Ald. Morrison submitted a proposal from the Fire Brigade that another paid driver be employed, as the duty was too restrictive of the time and freedom of one man.

The Mayor said that, while the Council would be glad to meet the wishes of the Brigade in every way that would promote efficiency and aid in their splendid work for the City, the proposal from the Brigade came in a year when the Council was making every effort to economize in order to keep down the tax rate, and he thought the matter could be laid over for a year without working any undue hardship.

Having secured a bargain in road-making equipment which he said would effect a great saving in the operations of his department, Ald. Meikle urged that immediate authority be given to close the purchase, which was being made far below the original cost of the plant.

A resolution was passed accordingly, authorizing the purchase of a motor for the rock crusher, a Republic tractor, two dump wagons and a scarifier.

Milk Tests

A report was received from Mr. J. E. Britton upon four samples of milk taken by Chief of Police Thomas from local milk dealers. All four were satisfactorily over the legal minimum standard of 3.5 per cent butter-fat, and it was decided, under these circumstances, that the names and respective percentages would not be published.

The Council adjourned until Monday, March 26th.

The 17th annual convention of the Western Canada Irrigation Association will be held at Penticton on July 11-13.

Shamrock Day Sale of Household Linens and Cottons

Saturday, Only

Our Annual Sale on Shamrock Day of Household Goods bids fair to be one of the selling events of the year.

An assortment of Linen Towelling, suitable for round towels or dish cloths; per yard 25c

IN TWENTY YEARS

"HE was only a little morsel of humanity one year old when I took out a 20-year endowment policy in the Mutual Life of Canada for him. It seemed a long way ahead then—it doesn't seem far looking back over those 20 years now.

"But the other night, when he came to me in the den, where I sat reading, it struck me very forcibly that my boy had grown into a man. He fairly towered above me where I sat in my lounging chair.

"Father," said he, "can you lend me \$1,000?"

"What do you want with \$1,000?" I demanded in surprise.

"It seems he had an opportunity of

entering a motor agency and garage business with some other young fellows whose fathers I knew well as successful business men. I looked up the date of the Mutual Life policy before I gave my answer.

"Yes," I said, "I will have \$1,000 for you on your 21st birthday—a little coming-of-age present from your mother and me."

"Do you know, it was a wonderful satisfaction to be able to say that!"

A Mutual Life Endowment Policy would put your boy through college, start him in business or help him in ways you might otherwise find difficult if not impossible.

Let us help you. Fill in this coupon and mail it to-day. We will send particulars in full.

Where

B. C. Products Lead

Few people realize the number of things which are being made in British Columbia at this time. Several products lead all Canada in the matter of quality. The milk canned in our province is admittedly the best produced in the Dominion, yet many citizens have never tried it. Canned fruits and vegetables, jams, etc., all take the lead, yet thousands of dollars worth of canned goods are imported annually.

If every citizen would study the matter for himself the unemployment problem would never exist in British Columbia.

COAL

THE TREATMENT OF GRAIN FOR SMUT

(Experimental Farms Note)

The smut diseases of grain are of considerable economic importance and every farmer should know how to combat them for the sake of his own crops as well as those of his neighbors. The treatments which have been devised are comparatively simple and should find a place in the routine of every farm. The following is a list of the common smut diseases of grain crops, with the treatments for each; this is followed by a detailed description of the treatments:

Wheat

Stinking Smut or Bunt: Thorough fanning of the seed grain will remove most of the smut balls. This should be followed by the formalin dip or sprinkle, which gives perfect control. Copper carbonate dust is giving good results and is easier of application, but it has not been tested sufficiently to warrant general recommendation.

Loose Smut: This disease cannot be controlled by seed disinfection because the fungus spores are not carried on the surface of the seed, infection being produced by a small part of the fungus carried within the grain. Hot water treatment is the only means of control.

Barley

Covered Smut: Formalin dip or sprinkle.

Loose Smut: This is similar to the loose smut of wheat and can only be controlled by the use of the hot water treatment.

Oats

Smut: Use the dry formaldehyde treatment, or the formalin sprinkle. In the case of hullless oats, either of these treatments causes a serious loss in germination of the seed, and copper carbonate dust should be employed.

Corn

Smut: This disease is not transmitted in or on the seed grain, but is carried over in the soil from one year to the next and spreads in the field from infected to healthy plants, producing the smut "boils" on any part of the plant. A strict rotation and, as far as possible, the collection and burning of the "boils" are the only means of controlling its spread.

Treatments

Formalin Dip: Fill bags half full of grain. Add one part of formalin (40 per cent formaldehyde) to 40 gallons of water, immerse bags in the solution for ten minutes, moving them up and down so as to drive out the air bubbles. Remove the bags and allow

them to drain and then spread out the grain to dry. Be sure not to replace the grain in the bags used for the seed before treatment, but either new bags or ones that have been soaked in the solution and dried. The solution does not lose strength by use.

Formalin Sprinkle: Dilute one pint of formalin (40 per cent formaldehyde) with 40 gallons of water. Pile the grain on a clean floor. Sprinkle the solution on the grain with a broom or sprinkling can. Mix well by shovelling over. When the grain is evenly wetted, pile it again and cover with clean bags for two hours, then spread it out to dry and put into clean bags. Forty gallons of solution is sufficient for 40 to 50 bushels of seed. If seeding is done soon after the treatment, adjust the drill to allow a free flow of seed, or the stand will be too thin.

Dry Formalin Method: Dilute one part of formalin (40 per cent formaldehyde) with one part of water and spray this solution on the grain, shovelling over at the same time. One quart of solution to 50 bushels of grain. Cover the pile with bags or blankets for five hours. The seed can then be sown without drying.

Copper Carbonate Dust: Two ounces of finely divided copper carbonate is used per bushel of seed. The seed and dust are put into a barrel and the open end covered by tying a piece of canvas or a sack over it. The barrel is then rolled around on the floor until the dust has been thoroughly distributed over the seed. This treatment can be done at any time prior to sowing.

Hot Water Treatment: This is a difficult treatment unless there is live steam used in the dairy on the farm, or unless there is a cheese factory nearby, where the treatment could be done. The bags of grain are placed in water and live steam turned in until the temperature is raised to 127 degrees Fahr. Enough steam is then run in to maintain a temperature of 124° to 127° for ten minutes. The bags are then taken out and drained and the grain spread out to dry.

F. L. DRAVTON,

Plant Pathologist.

Central Experimental Farm,
Ottawa.

On approaching the polling-station, a voter was implored by a canvasser to vote for Mr. Blank.

"I don't think," he replied, contemptuously.

"I know you don't," retorted the canvasser; "that's why I'm telling you whom to vote for."

HYGIENE IN THE PUBLIC SCHOOLS

(Continued from Page 1)

sufficient attention had not been paid to keeping the air in the classrooms moist, stating that it was quite a surprise to most people to know that humidity was necessary to create a healthy atmosphere and that much less heat was required to keep the body warm when the air was kept in a moist condition. Miss Urquhart also explained the great amount of body evaporation created in a classroom and that when the latter became overheated children naturally become chilled afterwards. This overheating in a dry atmosphere, she stated, is the cause of the majority of chest and throat troubles affecting children attending public schools.

Lighting

The proper lighting of schoolrooms was next touched on by the speaker, who referred to the various styles of architecture employed to allow as much natural light as possible to enter them. In this connection she pointed out that light should be so arranged as to conform with the range of vision of both pupils and teacher. A bad range of vision for the teacher was liable to affect the latter considerably and render her work very difficult and trying and this would necessarily react on the pupils. Light greys and buffs had been found to be the best colours for the walls of a classroom, which should in no case be painted any dark colour. The position of the blackboard was also an important point, very often overlooked. The board itself should never be larger than actually required nor extend higher than the teacher can use with comfort.

The next subject taken up by Miss Urquhart was that, in the best interests of the health of small children, they should never be kept too long in a sitting position. Such a position, she explained, was not natural to them and work should be so arranged as to allow them to change the position of their bodies frequently.

Defective Vision

The importance of the early detection and cure of defective vision was then explained by the speaker, who stated that it was the paramount duty of all, both teachers and parents, to report any cases at once, as this defect, by early treatment, can be fairly easily cured, in the majority of cases, if the proper glasses are supplied, which obviates the necessity of the child having to use glasses in after life. The speaker then went into considerable detail on the matter of defective vision, explaining the various symptoms of different kinds of troubles affecting the eyesight, and stated that even if a child was in the habit of frowning or continually holding its head more to one side than to the other, an oculist should be consulted. She felt sure that if teachers reported tendencies of that kind to parents, the latter would appreciate the interest taken in their children.

Seating Accommodation

Miss Urquhart next spoke on the question of proper seating accommodation. Most of the restlessness found in many classrooms, she explained, was due to little care being taken in seating children properly. Children in the same class are not necessarily all of the same size and care should be taken to see that each child was given a seat of the right dimensions. When sitting, the pupil's feet should reach the floor comfortably. Only single seats should be used, if at all possible. Double seats were very undesirable, chiefly on account of infection being spread from one child to another by their sitting close together. The best desk was the single adjustable desk, and when these were obtained they should be adjusted to suit each individual pupil, every three months at least. The speaker, to illustrate the latter point, stated that recently she had visited a school where the best up-to-date adjustable single desks were in use, but they had never been adjusted, the consequence being that small and large children were using seats which were of the same size. Miss Urquhart then named a number of defects which are commonly caused by improper seating of school children, such as curved shoulders, lateral curvature and pigeon chest, which last defect she stated to be caused by children being kept too long "sitting at attention." These defects, she said, could be cured if noticed by parents and teachers when the child is quite young and the proper exercises given. The habit of good posture while at work in school could be easily acquired and teachers should take notice of the position of the pupil's neck while at work as, if the neck was

properly held, the rest of the body would be in right position.

Another matter touched on by Miss Urquhart was the development of "flat feet", which she pointed out could be caused by keeping young children too long "at attention" with their feet on a forty-five degree angle, the position not being a natural one. The feet, when standing, should be nearly parallel. In this connection she pointed out that each school library should contain a copy of "Posture of School Children," by Jessie Bancroft, a work which could be easily understood by both pupils and teaching staff and which would be well worth looking up when any practical information on the subject was needed.

Water and Cleanliness

Miss Urquhart then drew the attention of her audience to the matter of the pupils' drinking accommodation, stating that children should be allowed to drink water frequently when at work in school and that to be really healthy children should always drink between meals. Drinking fountains were a modern necessity and these should be kept clean. Proper sanitary washing facilities were also absolutely essential. Liquid soap should be provided and, if at all possible, individual towels. It was, she stated, wasted time and effort trying to keep children in good health, if proper facilities for cleanliness were not placed at their disposal.

Sleep and Nutrition

Another important matter to which the speaker drew the attention of parents is the fact that children attending school require ten or more hours sleep. Malnutrition, she pointed out, is often due to want of the proper amount of rest and sleep, and she asked parents to bear in mind that amusements and work both should not be allowed to prevent the requisite amount of sleep being taken by any child of school age.

The last subject touched on by Miss Urquhart was the proper feeding of school children. Milk, if possible, should be taken in large quantities and no child attending school should be allowed to drink tea or coffee. The child's diet should be plain and simple, especially during the period of rapid growth. In this respect, she said that one of the best and most encouraging signs of the present times is the fact that medical authorities and public boards are all interested in promoting in every way the welfare of our school children and that nowadays attention is being paid to advice given by those who have made this subject an object of special study.

After a vote of thanks had been given Miss Urquhart for her address, the rest of the evening was spent in card playing and listening to musical selections. Refreshments were served and the balance of the evening passed very pleasantly.

At the conclusion of the meeting, the following information relative to the Junior Red Cross Society was obtained from Miss Urquhart by a representative of the Courier.

The chief aim of the society is to encourage the study and practice of personal and community hygiene, and to provide surgical treatment for children suffering from physical defects which interfere with health and education and for whom there exists no other means of obtaining the needed care. The Junior Red Cross also gives a child an opportunity to put into practice lessons in mutual responsibility, thus providing an excellent training in the duties of citizenship at an early age. Children between the ages of six and eighteen are eligible for membership in this association and six, or more, members of any school or classroom may be organized into a branch of the society. The branch, thus formed, may decide upon a distinctive name and elect their own officers, who consist of four, an adult supervisor, a president, a secretary and a treasurer. Meetings of such a branch are usually held monthly. The fee for membership is 25 cents a year, and in this connection it is well to remember that absolutely all monies thus collected, or which are in any way contributed to the society, are spent entirely on physically defective children. No deductions are made for expenses of organization or administrative purposes. Children forming a branch are thus assured that they are taking an important part in helping other children less fortunate than themselves, as well as learning to take advantage of the blessings of health and education. A special magazine, designed to interest Canadian boys and girls, is published by the society and any child writing to Miss Jean Urquhart, Director of the Junior Red Cross, 809 London Building, Vancouver, can obtain a copy. This lady has recently been appointed a provisional director for the purpose of extending the society's work in B. C., the organization in our own province being much behind that of our sister provinces and having been hitherto largely limited to the Coast.

DOUGLAS FAIRBANKS in

The Three Musketeers

It is useless for us to devote much space to this irresistible picture. Everybody knows he outwits all his previous pictures with Dumas' immortal romance. The combination of story and star will prove irresistible to all good movie fans, the splendid quality of the production supplying the third link in the chain that completes the holding power of this epoch-making screen drama. In all fiction there is not another hero of romance to equal D'Artagnan; in all of Fairbanks' previous pictures there is not one to equal this. The press proclaims it "truly magnificent."

Christie Comedy: "THE MECHANICAL HORSE."

RUTLAND

The attendance at the meeting of the Rutland United Society on Thursday evening last was much larger than has been the rule for some time. The President, Mr. Leon Fitzpatrick, occupied the chair and in his opening remarks commented upon the encouragement that it gave to the officers of the Society to have well attended meetings. The speaker for the evening was Mr. W. G. Gray, who gave a very interesting talk upon South America, describing a journey from Glasgow to the West coast of the Southern Continent. The speaker gave many interesting and amusing details of life and customs in Chile, Peru and Ecuador. The audience was especially impressed by his graphic description of bull fighting as carried on in Peru. A hearty vote of thanks was extended to Mr. Gray for his excellent address.

The Rutland company of Girl Guides held a very successful "Mother and Daughter" banquet in the School on Friday evening last. About sixteen Guides and their mothers, together with the members of the Girl Guides Executive Committee of the Women's Institute and ex-officers of the committee, sat down to a sumptuous repast. The tables were prettily decorated in the company colours, green and gold. After they had all partaken of the good things set before them, a number of toasts were proposed. The "Toastmistress" was Patrol-Leader Freda Garthorne, who carried out her duties in a very able manner. The following was the toast list: "The King and Empire," proposed by the Toastmistress, responded to by singing the National Anthem, "Canada," proposed by Guide Leila Lewis, responded to with the song, "O Canada," "Our Community," proposed by Second G. Anderson, responded to by Mrs. A. W. Gray. "Our Mothers," proposed by Second Dorothy Kemp; Guides sang the song "Mother"; responded to by Mrs. J. W. Anderson. "Girl Guides," proposed by Mrs. T. Cooper, responded to by Patrol-Leader Mildred Cooper. A vote of thanks to the Captain of the Girl Guides Company, Miss Falk, was replied to by a short speech.

The regular meeting of the Women's Institute was held in the School basement on Thursday afternoon last. There was an attendance of about thirty-five ladies. The chair was occupied by the President, Mrs. J. R. Beale. After the Secretary, Mrs. E. Mugford, had read the minutes and they had been formally adopted, the regular routine business was gone through. It was decided to place a tender for the operation of booths at the Kelowna Regatta and Fall Fair. Mrs. A. C. Kemp reported for the Home Economics department. Mrs. A. S. Mills gave a short talk on strawberry culture. Mrs. Marchant spoke on legislation which the Institutes desired to see enacted. Mrs. H. J. Logan reported on the work of the Executive Committee of the Girl Guides. The President then called upon Miss Juniper, of Kelowna, who addressed the meeting upon "Native Diet in the Islands of the Pacific." The speaker was for some time resident in the Samoan and other islands of the South Seas, and her address proved very interesting. Miss Juniper was the recipient of a very hearty vote of thanks. Refreshments were served at the close by Mesdames Loosemore, A. L. Cross, A. W. Gray and W. G. Gray.

Rev. C. A. Campbell occupied the pulpit of the Presbyterian church on Sunday morning, Rev. J. A. Dow being at the Coast attending a meeting of the Synod.

Rev. Mr. Purly, of Penticton, preached in the Methodist church on Sunday evening, speaking on a missionary subject. Mr. Purly was for some time a missionary in South China. Rev. Frank Stanton was in Penticton over the week-end, where he occupied the pulpit in the Methodist church there.

Miss Agnes Rae left on Monday for Salmon Arm to attend a convention of the Women's Missionary Society. After the convention Miss Rae will proceed to the Coast, where she intends to spend a month or so visiting friends.

Mrs. M. A. Caverly arrived on Friday from Vancouver to visit her grand-daughter, Mrs. E. Butterwick.

The meeting of those who had signed contracts to ship through the new Co-Operative Growers concern, which was held in the School basement on Monday evening, was attended by about eighty growers. Mr. A. C. Loosemore occupied the chair, while Mr. E. M. Carruthers acted as secretary.

The object of the meeting was to choose a candidate to represent Rutland on the board of the Local. Mr. Lysons was called upon to explain the action of the other districts and the objects in view. After Mr. Lysons had spoken, the meeting was thrown open for nominations. Messrs. Price, J. W. Anderson and Dalgleish were nominated. Mr. Dalgleish subsequently withdrew in Mr. Anderson's favour; this left a straight fight between the other two nominees. On the ballot being taken, Mr. Anderson was declared elected, the vote being very close, we understand. The feeling of the growers seemed to be for the infusion of fresh blood into the organization. The next business was appointment of three representatives to a committee being formed to press forward the local business in connection with the Co-Operative. Messrs. Price, Monford, Carruthers, Dalgleish and McMurray were nominated, the three first named being elected. A resolution was passed, unanimously, favouring the centralization of the Co-Operative, as against local self-government. The meeting then adjourned.

Mr. J. Heselwood, of Penticton, is a visitor to the district. Mr. Heselwood will be well remembered by the old-timers, having resided here some ten years ago.

Mrs. P. Acland returned last week from a visit to relatives at West Sumnerland.

Great excitement prevailed in Rutland on Tuesday, the occasion being the polling for a site for the Community Hall. The total vote was over four hundred, which gives some indication of the amount of interest taken and also gives some idea of the population of the district. All residents over eighteen years of age were eligible to vote. Mr. J. R. Beale acted as Returning Officer, the B. M. I. D. offices being the polling station. The final count showed two hundred and sixteen votes for the Eutin-Adams site, opposite the store, and one hundred and eighty votes for the school site. Work on construction is to commence immediately, we are told. It is to be hoped that the matter has now been settled and the people in the north end will not be poor losers, although it will undoubtedly work a hardship upon some of them. It is only fair to ask, also, that the residents of the Belgo and Hollywood, whose votes undoubtedly swung the decision, take a more active part in the community life and support the various organizations of the district to a greater extent than has been the case hitherto.

ELLISON

Mr. and Mrs. Atack and family returned from an extended trip to Moose Jaw on Monday.

Mr. Jack Anderson is looking after Mr. Harry Latta's place during his absence at the Coast.

Mr. W. Hererson returned from Princeton last week.

A combined club meeting and party was given by Mr. Jock Anderson and Miss Jessie Thomson last Friday evening and it was a very enjoyable affair.

There was a good attendance at the meeting of the local United Farmers last Wednesday evening. After the minutes had been read and adopted, the secretary reported on the result of the Concert and Old Time Dance, which netted the local about \$56, the expenses having been unavoidably rather high.

Mr. J. W. Jones, M.L.A., gave an interesting talk on parliamentary methods and the bringing up of bills before the Legislature, going on to give details of recent bills and amendments of interest to farmers and fruit growers. Questions were asked by the meeting, which Mr. Jones answered, and at the finish a hearty vote of thanks was given the speaker for coming out to the meeting.

The next business was to make a district nomination for a director of the new Co-Operative. Mr. T. Bulman was nominated unanimously, as no other name was put forward, it being generally agreed that Mr. Bulman was the best man for the position.

A committee of three was then appointed to deal with any matters concerning appointment of directors. Most people will be glad to see directors of business ability and experience take control of the local organization, and get along with financing and other necessary arrangements.

The slowness of the present committee in organizing, which is possibly unavoidable, has tried the patience of many people considerably, besides the scarcity of information as to what is being done. With the many conflicting rumours, how many people know the percentage of fruit men signed up? Those who stay out of the new concern will probably sell to a little more advantage than those in the organization, but they are seriously endangering the success of the whole scheme.

According to recent figures the prairie market will absorb only 60 per cent of the total crop. This means that if 20 per cent stay out of the organization (most of which percentage would be thrown on to the prairie market) the Co-Operative will only be able to ship 50 per cent of their total output on to this market, which is the only one to be relied on to give the growers

DOUGLAS FAIRBANKS

"THE THREE MUSKETEERS"

Adaption, Cartuning, Research under Edward Knoblock

Direction under Fred Niblo

Photography under Arthur Edeson

"ALL FOR ONE, ONE FOR ALL"

In this production "Doug" has achieved the ambition of his life—and registers with it, what is by all odds the great, outstanding success of his career. His is a remarkable, clear-cut portrayal of the noble D'Artagnan, the wonderful hero of Dumas' amazing novel of Mediaeval France.

This tremendous film is the happy culmination of a desire of years on Fairbanks' part to enact what is conceded to be the most striking and heroic figure in the entire history of literature.

AT THE EMPRESS

Wednesday and Thursday, March 21st and 22nd

EASTER, THE GLAD TIME

is almost here with its heralding of Spring in the new life bursting forth all around us. At this happy time the children love to celebrate in the old-fashioned way with eggs of various sizes and colors, with chickens, setting hens and rabbits, hen's eggs, chocolate eggs in different sizes, marsh-mallow eggs, guinea eggs, dove eggs, oriole eggs, humming bird eggs, canary eggs, Easter Eggs of all kinds, large and small, and many other Easter novelties in chocolate and pan goods.

NEXT WEEK

We will have some special Canned Goods prices for Canadian Canned Foods' Week
MARCH 24-31

THE CONSUMER'S OPPORTUNITY

Anticipating this Canned Foods' Week we will have a Heinz representative in our store on

FRIDAY, MARCH 23rd,

demonstrating the many superior qualities of Heinz 57 varieties—especially Heinz Canned Goods—but more of Canned Foods' Week and the Heinz Demonstration next week.

LETTERS TO THE EDITOR

SURELY AN ERROR

East Kelowna, Mar. 13, 1923.
The Editor,
Kelowna Courier.

Dear Sir,
In the "Daily Province" issue of the 9th inst., page 7, is an article by T. M. Fraser headed "Fruit Growers Put Up Strong Case At Ottawa." The outstanding feature of the piece in question to my mind is what was stated by Mr. L. E. Taylor as to what he considers a fair profit would be to the producer.

Mr. Taylor is quoted as stating that, over a period of ten years, the average production is four boxes of apples per tree and that, in his opinion, from 10c to 20c would be a fair profit on each box.

Say the planting plan gives 50 trees per acre; an average yield would then be 200 boxes per acre, and the rate of profit would be from \$20 to \$40 per acre. Taking the highest figure, a man with a 10-acre orchard of average productivity can thus only expect to receive \$400 as his profit in a business that calls for a high degree of skill and constant care of that in which he has most likely invested all the money he could lay hands on.

The "farm hand" of today would not work for the sum mentioned, yet he has no risks to run, no worries such as the unfortunate growers have to endure.

The article concludes with the following paragraph: "Mr. Sales (Progressive member for Saltcoats) produced figures showing that the grower was getting from \$1.27 to \$1.50 for McIntosh Reds, the cost to the consumer on the prairie was \$4, which included 65c for freight, 60c for packing and 15 per cent to the wholesaler, which per cent he got on freight and handling charges as well as on the fruit. The profit to the retailer was 90 cents a box."

Compare the profit of the latter gentleman with that of the grower's 10c to 20c, which Mr. Taylor is quoted as having stated would be a "fair profit!"

What sense of justice is there in the retailer getting such a profit when he runs no risks such as the growers do, having to take no chances on the weather (frost, wind and hail) and other things known only too well to those in the industry.

I trust that Mr. Taylor has been reported wrongly, for I do not believe he thinks he would be making any headway at a "profit" of 10c to 20c per box over a ten-year period.

Yours truly,
H. S. ROSE.

TOMATO PRICES

Kelowna, B. C., Mar. 13, 1923.
To the Editor,
Kelowna Courier.

Dear Sir,
Here is some plain arithmetic concerning tomato prices.

One box of tomatoes makes from 25 to 30 boxes of canned goods, according to the variety of tomatoes. The sale price of one box of canned tomatoes, containing 24 cans, varies from \$2.50 to \$2.75 according to the season. Therefore:

Sale price f.o.b. Kelowna for only 25 boxes varies from \$57.50—\$68.75

Price offered to tomato growers per ton (not accepted) by the canners' representatives \$15.00—\$15.00

Margin to canners, from \$42.50—\$53.75 out of which to pay all other costs of producing and selling canned goods (freight paid by the other end), and to make a fair net profit.

Does it not seem that such a margin would permit the canners to pay \$5.00 per ton to the grower over the price offered this year without the canning industry of the valley being deprived of a really fair net return? The prospect of getting not more than \$15.00 per ton has already killed all enthusiasm for tomato growing amongst us farmers, and such an inadequate price, if maintained, is bound to reduce the tomato acreage to an extent that would certainly not be in the interests of the canning industry, and still less in the interests of the district as a whole.

We all, town people as well as farmers, are certainly much indebted to the local tomato canning industry and therefore should always be willing to let those industries make a handsome recompense in proportion to the commercial risks they take and to the hard work and worry connected with such enterprises. But, on the other hand, it is a well known fact that we farmers are sorely burdened to the limit with inadequate returns for the risks we take and for our long hours and severe drudgery.

What this means to the town and country need scarcely be explained; therefore, let us pull together, both the canning industry and the farmers, under fair prices and conditions, which is the only way to produce in the long run prosperity and happiness on both sides. Let us do proper "team work" in this matter and continue it in the days to come!

Dr. P. de PFYFFER.

It has been given out semi-officially that the Federal Government will carry out no large public works in this province this year, the policy of the Government at Ottawa being to avoid the spending of money wherever possible. Considerable sums, however, will be expended on necessary bridges and wharves. Whether federal aid will be forthcoming for the construction of the Trans-Provincial Highway between Hope and Princeton is still undecided, but it is expected that a decision on this subject will be made early in April.

Knocks

The knock produced by a loose piston pin is considerably lighter than a crank shaft knock, and is most noticeable when the engine is running idle with the throttle nearly closed. The only remedy for the knock is to repair the pin or bushing, or both. The knock, however, does not indicate so dangerous a condition as a crank shaft or connecting rod knock.

BASKETEERS DO WELL AT SUMMERLAND

(Continued from Page 1)

The second contest, between the rival men's intermediate teams, followed the ladies' match and showed that Summerland has a set of players composed of High School lads of eighteen years of age and under who are hard to beat. They are in a class by themselves. Though the Kelowna team was the heavier one, they were clearly outclassed by the Summerland combination and the fastness of their opponents, whose shooting was very much superior. This match ended in a score of 27-15 in Summerland's favour. It will interest all basketball players in the Okanagan to know that this Summerland team will make a trip to the Coast during the Easter holidays and play against teams of various kinds at Vancouver, Victoria, Chilliwack and other points, games with intermediate teams and high school players having already been arranged.

The men's senior game, which was refereed by Mr. R. Parkinson, of Kelowna, showed that Kelowna had fielded the strongest team ever sent out of the Orchard City. It was a close contest all through, much closer than the final score would indicate, and created intense excitement, the spectators being hard to control at times and making for the floor in their over-enthusiasm. Summerland was handicapped by the fact that two of the players in this contest had taken part in the previous game, but put up a splendid exhibition. This match ended in a win for Kelowna by a score of 24-13.

At the close of the games the visitors from Kelowna were very hospitably entertained by the good people of Summerland, a dance and supper having been arranged in their honour in the Summerland Parish Hall, where the festivities were kept up till 2 a.m. At that early hour several of the Kelowna players motored to Penticton, so as to be able to get some sleep on the boat on the return trip, while the balance of the party put up at the Summerland Hotel. All thoroughly enjoyed the trip. A return series of matches between the same teams will take place at the Boy Scout Hall, Kelowna, this evening, commencing at 8 p.m.

The following was the line-up:—

Senior Ladies' Kelowna
Eva Shields f. Jean Kincaid
Bertha Bristow f. Doris Jones
Irene Harris c. Mrs. H. G. M. Wilson
Nora Thompson g. Mrs. Bay Burne
Olive Bristow g. Marjory Moffat
sub. Alice Brown

Men's Intermediate
J. Smith f. C. Rowcliffe
Ivor Harris f. D. Kerr
Warren Gayton c. D. Barton
Ken Walden g. J. Calder
Gordon Blewett g. R. Parkinson
sub. R. Raikes

Men's Senior
Ivor Harris f. C. McLeod
I. Adams f. T. Lewis
Warren Gayton c. C. J. Parkinson
C. Adams g. G. Gayton
G. Blewett g. G. R. Seath
Referees—R. F. Parkinson, of Kelowna and Geo. Guy, of Summerland.

BENVOLIN

During the absence of Mr. and Mrs. J. A. Dow, who are attending the Synod at Vancouver, Mr. Campbell, of Rutland, officiated at Benvoulin Church last Sunday.

Mr. A. MacFarlane, of Okanagan Centre, has recently purchased through E. W. Wilkinson & Co. the Featherstonhaugh property and intends taking possession immediately.

Mr. and Mrs. Delbert Speer are the proud possessors of a baby daughter.

The Benvoulin United Farm Women had a very successful bazaar and tea in the Oddfellows Hall last Saturday afternoon, and the members feel quite pleased over the result of several weeks' work. The room and tea tables were tastefully decorated with daffodils and pussy willows, and at the booth where Mrs. E. A. Day, Mrs. J. J. Staples and Mrs. C. Burth presided, a large assortment of attractive articles were artistically arranged for sale. Mrs. Dilworth and Mrs. De Mara had charge of a short but excellent programme. Those taking part were Mrs. Ritchie, Mrs. Cross, Mrs. Dilworth, Mrs. Williams, Mrs. Blair, Mrs. Mathie, Mrs. Trenwith and last but not least, a sweet little song by wee Audrey Dilworth.

Some two hundred and fifty men will shortly be employed on the provincial government's irrigation project in the Southern Okanagan Valley, and it is expected that no less a sum than \$400,000 will be expended this season with a view to putting a large additional area under water. A metal flume is to be laid from Testalinda Creek to the north end of Osoyoos Lake and excavating for the main ditch will be continued. Altogether this year's construction programme will place 8,000 acres under irrigation, so that the settlers in and around Oliver and Osoyoos are expecting a very busy and progressive season.

15 ACRES, 11 acres in bearing orchard, best commercial varieties; 3 acres in hay; bungalow of 6 rooms, with full basement; poultry house; garage. A first class property. Price \$10,500

1/2 Cash; balance on terms.
10 ACRES, 5 acres in Orchard, 8 years old. The whole property is in alfalfa. Small one room cottage; root-house and chicken house. Ideal for chickens. Price \$1,800.00

\$900 Cash; balance on terms.

THE DIFFERENCE

A clergyman once told a story concerning a man he had approached for a contribution towards the church funds. No amount of persuasion would make the man give anything, and at last he said to him, "Why not? Isn't the cause a good one?" "Yes," answered the man, "but the fact of the matter is I owe too much money. I must be just before I'm generous, you know." "But surely," said the clergyman, "you owe your Maker a larger debt than you do anybody else?" "That's true," was the reply, "but then He isn't pushing me like the rest of my creditors."

Spring Footwear SUPERIOR

From Friday, March 16th, Until Saturday the 24th, Will Be Footwear Week in This Store

A TRADE-NAME, no matter how well known, carries no weight unless the goods back it up. We have borne that in mind, and we have purchased ONLY MERCHANDISE that has a wealth of merit in it. LISTEN! We buy them direct from the manufacturer. Only those with enviable reputations considered. Bell's, Classic, Church's, Hart's, Murray's, Chums', Williams', Leckie, Dominion and Sterling. We do not know any better. Do you?

The newest ideas in footwear fashion are shown in our ladies' styles. A wide selection, including popular strap effects; button or buckle and attractive creations in Colonial and Tongue Models. Colors that will be much worn for spring: mahogany, black, grey and combinations; patents are also good. For summer wear white of course will be the most popular.

Ladies' Department

Model 1667.—Women's Patent Vamp, grey strap and button. This model made Baby Louis Heel instead of Cuban as in cut. "Flexible sole," sizes 2 1/2 to 7 \$6.50

Model 1562.—Women's Brown Calf Slipper, one strap and buckle; Good-year Welt; Bell's make; Military Heel; Sport last. Sizes: 2 1/2 to 7 \$7.50

Model 439/437.—Women's Brown Calf and Black Vici Kid on a real, sensible last. This is one of our very best bets. McKay sewn; Military heel; brown calf \$7.25

Black Vici \$8.00

Model 959.—Growing Girls' Model; this is our Chums' line and is wonderful. Black calf and chocolate, made very low heel; one brogue, the other plain; sizes: 2 1/2 to 7; price \$5.50

Men's Department

Model 2565.—Men's Winter Calf Brogue, made by the world's best maker, "Church," of Northampton. This line needs no advertising. Widths D, E and F, at the same price all over Canada \$12.50

Model 486/2.—Hart's Chocolate Calf Balmoral, on their newest last, Rex. This is a real young man's boot; sizes, 5 1/2 to 11 \$12.00

Model 132.—Murray's Wade Last. This is our big seller at a medium price, \$7.50, and comes in Black and Chocolate and is the best medium priced boot on the market today. \$7.50

MEN'S HEAVY WORK BOOTS

In this connection we want to say that we have given this department special attention and we feel we have the very best the market affords. \$3.75 to \$7.50 and up. BOYS', GIRLS', MISSES' AND CHILDRENS' LINES are certainly more snappy and better made than they have been in the past and we feel that we could not offer anything for your consideration than these lines. We have not space here to describe and give prices. ALL OUR WINDOWS are full and all priced. Come in and talk Footwear with us and we will be glad to show you our stock, whether you buy or not.

We carry the LARGEST and BEST ASSORTED STOCK of FOOTWEAR in the Interior of British Columbia.
